## **1. PURPOSE**

The purpose of this call for proposals is to define the conditions under which students of Università Europea di Roma may participate in the BIP (Blended Intensive Programme) “European Integration and European Policy”, one of the innovations introduced by the Erasmus+ Programme, aimed at combining physical mobility with virtual and distance learning activities.

Through this programme, students from different European universities receive an educational experience based on online collaboration between academic institutions, culminating in a short physical mobility at one of the partner universities.

This exchange is intended for academic recognition and achievement, as well as for aligning with the student’s curricular profile.

Anything not covered by these terms and conditions will be governed by the European provisions for the Erasmus+ Programme and by the General Mobility Regulations of Università Europea di Roma.

The call for applications and all its annexes are available in Word/PDF format in the dedicated section of the Università Europea di Roma website at the following link:
